

# it was a dream

by Big Bill Broonzy

It was a dream, just a dream I had on my mind  
it was a dream, just a dream I had on my mind  
when I woke up this morning, not a thing there could I find

I dreamed I won the lottery, won at the horses too  
I dreamed I won so much money, I didn't know what to do  
but it was a dream, just a dream I had on my mind  
when I woke up this morning, not a nickel could I find

I dreamed I went to the White House and sat in the president's chair  
I dream the president said, "Hey boy, I'm so glad that you're here"  
but it was a dream, just a dream I had on my mind  
when I woke up this morning, not a nickel could I find

I dreamed that I got married, had a wife and a family  
I dreamed I had a house full of children and one of them looked like me  
but it was a dream, just a dream I had on my mind  
when I woke up this morning, not a child there looked like mine.
